**Atieh Associates**

*Atieh Associates has reeled in many of Iran's biggest deals, keeping the firm in the top tier once again. The firm was unaffected by the departure of two senior associates Parisa Mazaheri and Faraz Naji to work in other cities in the Middle East as it gained replacements in senior associate Maryam Hosseini and associate Mehrnaz Mehrabi.*

*A relatively large proportion of the firm's mandates come from foreign clients: among its work in the energy sector, the firm advised European lenders in relation to their financing of crude-oil carriers. It also acted for a foreign oil company in connection to a liquefied natural gas (LNG) project. The firm has also been busy in the natural-resources sector, and recently advised a foreign buyer on its acquisition of a gold mine in Iran.*

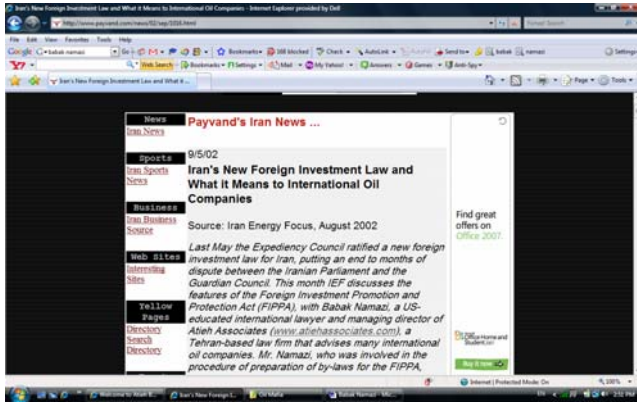

*All of the firm's key deals are executed by partner Babak Namazi and his associates. A peer recommended the western-educated partner as one of the top lawyers in the country, since he has strong English skills and provides a "western-style" service to clients. Says another: "He's the most proactive lawyer I've seen in Iran." The firm's excellent client service also means it retains a large number of western clients*

● **Babak Namazi, drafting a law for the government:**

- Atieh's customer list

Atieh's international client list include Statoil and Total, both had to pay bribes to enter the Iranian market. Some American corporations also work with Atieh.

- **Atieh dadehpardaz customer list includes major banks and security sensitive institutions like the parliament. Atieh has access to their data. This shows the trust between the regime and Atieh**
