Trita jaan,

I am not planning to come back to Washington DC any time soon. But there is nothing to be worried about. I can conduct my responsibilities from anywhere as long as I have access to the internet and telephone! And if for any reason, it was absolutely necessary for me to be in DC or NY or anywhere else, I can arrange to be there as long as I have been given ample notice.

Let me know aziz,

Good luck and take care,
Mo

Mohammad jon,

I fully understand, and it would not have been a problem had you let me know, its just that I need to know in case NED would request something. Fortunately, they haven't, and now I know. When you will you be back.

tp

Trita jaan,

I thought I told you that I needed to be in CA, so I decided to make a road trip out of it and travel across the country. It was a spur of the moment decision to start the trip in August. You were out of country and we did not get to talk on the phone or in person, besides, Sean and I have met a couple of times and we have been in constant touch during August and I have been working on the project with Sean and Vishal and responded to a few inquiries from Iran anyway. Not to mention, I worked much more than "full time" during May and June and did not mention it at all. Both of us know, that the nature of this project behooves an independence of my location, right? Having said all of these, I am sorry to have not emailed you about my trip.

Talk to you soon,
Mo

Mohammad jon,

I had no idea you were on a road trip. You need to let me know these things, because technically you are working full time this month.
