Subject: Katrina- important

I have been put under some pressure regarding setting up a fund for Iranian Americans to help the victims of Katrina. Noosheen Hashemi specifically called. Baquer Namazi wrote, and another member called and left a message. All say the same thing: we need to set up a fund and then we turn the money over from "Iranian Americans", and then we get the publicity for it through the media. They want NIAC to spearhead it. The Board meeting is in two days and I'm busy with that. Also, I have no idea how to set up such a button on the website. I called Sean and he said he'd look into it but didn't think we could do it.

Please let me know what we should say to people.
