Subject: Message of Peace (Draft two)

Message of peace
and friendshi...

Dear friends,

This note has been drafted with inputs of many of our dear compatriots who love Iran. The farsi version is also ready. We hope to collect at least 100 signatures from academics and civil society activists who are committed to peace and to the principles of people to people collaboration as spelt out in the attached.

Many of our Iranian friends from academics and the private sector have indicated their interest to assist. Also we can count on many progressive US scientists, scholars and civil society workers.

We suggest the following as criteria for identifying those we invite to sign:

1. Independent
2. Not holding any senior government position
3. Respected members of academics, civil society and the private sector
4. Non-confrontational with government
5. Not seeking to promote political agenda of any group

Those of you who are interested in helping mobilize support, please contact me.

Many thanks
Baquer Namazi

Ps. In case you do not want your name on this list please send me a private note and I will respect your views.
